
My Dream Business & Life Vision

Your 3-Year Dream Business & Life Vision in details vividly in writing what you seek to create. What will your venture look and feel like 3 years from today? But here's the catch, it does NOT talk about HOW each part of the vision will get built or put in place. It's NOT about execution, it's all about vision, what the future looks and feels like.

So, picture yourself exactly 3 years into the future, on today's date. Everything you've dreamed of creating has happened. Your environment, people, products, services, brand, impact, reputation, etc has hit or exceeded your wildest hopes. Take detailed notes by answering the questions to create your outline. Once your outline is complete, craft your three year vision in present tense as if it has already happened.
